Medical Information Form (MEDIF)

MEDIF No: 416223

Application for passenger requiring special assistance or medical clearance

No medical clearance or special type of form is required for those incapacitated customers who only require special assistance at the airport or during the embarkation or disembarkation process.

All questions must be answered in full.

Use BLOCK letters or a typewriter when completing this form.

Use a cross (X) in “Yes” or “No” boxes to indicate appropriate preference.

MEDIF to be completed in English by nominated physician.

MEDA approvals are for Qatar Airways operated flights only.

Notes for the guidance of a medical practitioner are on page 4 & 5. Cabin attendants are not authorized to give special assistance to particular passengers, to the detriment of their service to other passengers. Additionally, they are trained only in FIRST AID and are not permitted to administer any injections, or to give medication.

You must be reasonably satisfied that you are medically fit to fly. If, despite having received medical clearance, you subsequently do not feel fit enough to fly then please inform us immediately. Your booking continues to be subject to our fare rules/booking terms and Conditions of Carriage.

MEDIF forms must be submitted to Qatar Airways no less than 48 hours and no more than 7 days prior to the departure of each flight (outbound and return). In case no new MEDIF is required for the return journey then this will be indicated within Part 2 of this form as “Approved (full journey).”

Fees if any, relevant to the provision of the above information and for carrier-provided special equipment is to be paid by the passenger.

Customers are requested to check with the respective office for an approval prior to travel.

* For Doha (Qatar) station please submit the completed form to the Medical Counter at Qatar Airways Ticketing Implant office in the Ministry of Public Health Tower.

In order to enable Qatar Airways to confirm my fitness to fly for my booked flights, I hereby consent for Qatar Airways Medical Examiner stated in Part 2 below to disclose the necessary information to Qatar Airways solely for the purpose of determining my fitness to fly and to fulfill my special assistance requirements and hereby release the attending doctor from his/her obligation to maintain my medical information strictly confidential with respect to the disclosure to Qatar Airways, and agree to meet such physician’s fees in connection therewith. I reserve the right to revoke my consent to Qatar Airways to process my medical information at any time, but recognize that this may result in my being deemed not fit to fly and being therefore denied carriage on my booked flights. If the flight was already booked, there might be cancellation fees. I agree to notify Qatar Airways if there is any change in the status of my medical condition before my flight to avoid being refused for travel.

Yes, I have read and understood the above statement and hereby consent to the processing of my personal data/the personal data of the minor or person whose legal guardian I am.

Passenger or Guardian’s signature

Contagious and communicable disease?  
Yes  No  Specify:

**MEDA 06**

Would the physical and/or mental condition of the patient be likely to cause distress or discomfort to other passengers?  
Yes  No  Specify:

**MEDA 07**

Can patient use normal aircraft seat with seat belt placed in the upright position when so required?  
Yes  No  Specify:

**MEDA 08**

Can patient take care of his/her needs onboard unassisted? (Including meals, visit to toilet, etc.)  
Meals  Yes  No  Visit to toilet  Yes  No  Specify:

**MEDA 09**

If to be ESCORTED, by whom?  
Doctor  Nurse  Resp. Therapist  Non-medical  Passenger traveling alone  Other (please specify):  
If not, state travel companion or proposed escort by you

**MEDA 10**

Does the patient need “OXYGEN” equipment in flight? (If YES, please state rate of flow):  
Continuous  Yes  No  Specify:  
Litres Per Minute (Between 2 to 8 LPM)  Specify:

**MEDA 11**

Does the patient need any MEDICATION, other than self-administered, and/or the use of special apparatus such as respirator, incubator, ventilator, nebulizer, etc.? (Note: all battery operated equipment on board must be dry or non-spillable, otherwise specify)

A) On the ground while at the airport(s)  
Yes  No  Specify:

B) On board the aircraft  
Yes  No  Specify:

**MEDA 12**

Does the patient need HOSPITALISATION, (If YES, indicate arrangement made, or if none were made, indicate “No action taken”)

(Note: The attending physician and/or Patient is responsible for all arrangements).

A) During long layover or at connecting points  
Yes  No  Specify:

B) Upon arrival at destination  
Yes  No  Specify:

**MEDA 13**

Other remarks or information in the interest of your patient’s smooth and comfortable transportation  
Yes  No  Specify:

**MEDA 14**

Other arrangements made by the Attending Physician:

Please ensure that all above information is accurate. Once approved, no last minute changes will be entertained. Qatar Airways must be informed of any change in patient’s status or requirement at least 48 hours prior to departure.

I have read, understood and hereby agree to the conditions of the MEDIF form

Remarks

* Incubator/ventilator/ambulance arrangements are to be made by the treating doctor/hospital/family members. It is advisable to carry a universal multi-configuration adaptor to ensure compatibility of electrically operated medical equipments with electrical supply outlets on board the aircraft.
Reduced atmospheric pressure (Cabin air pressure varies greatly during 15-30 minutes after takeoff and before landing. Gas expansion and contraction can cause pain and pressure effects).

Reduction in oxygen tension (The cabin is at a pressure equivalent to an altitude of 6,000 to 8,000 feet and oxygen partial pressure is approximately 20% less than on the ground).

Any medical condition which would render a passenger unable to complete the flight safely without requiring extraordinary medical assistance during the flight is considered unacceptable for air travel.

Conditions usually considered UNACCEPTABLE for air travel (although these are suggested limiting factors, each individual case must be considered on its merits and is dependent on whether or not the passenger is accompanied by a professional escort).

- Anemia of severe degree
- Severe cases of Otitis Media and Sinusitis
- Acute contagious or communicable disease
- Those suffering from Congestive Cardiac Failure or other cyanotic conditions not fully controlled
- Uncomplicated Myocardial infarction within 2 weeks of onset complicated MI within 6 weeks of onset
- Those suffering from severe respiratory disease or recent pneumothorax
- Those with GI lesions which may cause hematemesis, Melena or intestinal obstruction
- Post operative cases:
  a) Within 10 days of simple abdominal operations
  b) Within 21 days of chest or invasive eye surgery (not laser)
- Fracture of the Mandible with fixed wiring of the jaw (unless medically) escorted
- Unstable Mental illness without escort and suitable medication for the journey
- Uncontrolled seizures unless medically escorted
- Uncomplicated Single Pregnancies beyond 35 weeks
- Multiple Pregnancies beyond 32 weeks
- Infants within 7 days of birth
- Introduction of air to body cavities for diagnostic or therapeutic purposes within 7 days prior to air travel

Please carefully read the following frequently asked questions (FAQs) that will help you complete all the necessary information requirements. Failure to provide complete information to the airline will result in unnecessary delays in processing your case for air travel. We thank you for your understanding.

1. **What is the purpose of Medical Information Form (MEDIF)?**
   MEDIF is used for providing confidential information of passengers requiring special assistance. The information enables Qatar Airways Medical Centre to assess fitness of the passenger for air travel and to determine the use of medical equipment during travel e.g. stretcher, incubator, ventilator etc. It is therefore necessary that information (MEDA 01 to 16) required on MEDIF - PART 2 needs to be completely filled out.

2. **What other supporting documents are required to be submitted by the passenger along with the MEDIF?**
   The documents to be submitted are (in English only):
   a) Medical Report - where necessary;
   b) If the passenger needs to be provided continuous oxygen then certification (on a specified format) is required from the attending physician that a non-medical escort/attendant travelling with the passenger is trained to administer oxygen.
   c) Sonography report where and when applicable

3. **When do I need to submit a Medical Report along with a MEDIF and in which situations only a Medical Certificate (without MEDIF) will be sufficient?**
   **Medical Report along with MEDIF:**
   A detailed Medical Report is required under the following situations.

   1. Ventilator, Incubator, Stretcher Cases
   2. Passenger requiring medical oxygen on board
   3. Diabetics with unstable / complicated conditions
   4. Asthmatic sufferers requiring oxygen on board
   5. Single uncomplicated Pregnancy cases (beginning of 33rd week up to and not beyond 35 weeks)
   6. Wheelchair (for completely immobile passengers with recent surgery / medical treatment / illness)
   7. Others - where required by QR Doctor

Medical Information Form (MEDIF)

PART 4

Medical Certificate is sufficient and MEDIF is not required:
A Medical Certificate is required from a qualified doctor for the following.
1. Beginning of 29th week up to 32nd week of single uncomplicated pregnancy
2. Controlled Diabetic passengers on insulin injections
3. Passengers having recent leg fracture with a HALF PLASTER CAST (i.e. boot type - applied below the knee)
4. In case of any recent communicable or infectious ailment. The certificate must state whether the passenger is fit or unfit to air travel and should include precautionary measure/s if necessary.
5. Passengers using portable kidney dialysis machines and/or any medical equipment on-board provided the medical condition is stable and to make advance notice at least 48 hours prior to the date of travel.
6. Medical Certificate must be dated within 10 days of the flight date.

4. What is the difference between a Medical Report and a Medical Certificate?
A Medical Report is more detailed containing diagnosis, a summary of hospitalisation and recent general condition of the patient. A Medical Certificate includes brief diagnosis and states whether the passenger is fit for air travel and must state if any precautionary measures are required.

5. Which language should be used for MEDIF, Medical Report or Medical Certificate?
ENGLISH language is a must for MEDIF, Medical Report or Medical Certificate.

6. Does the Attending Physician OR Qatar Airways Medical Centre approve air travel on Qatar Airways flight?
Qatar Airways Medical Centre is the final authority to approve air travel for any patient. The patient’s Attending Physician provides details of patient’s medical condition, which help the airline’s Doctors in assessing whether the patient is fit for air travel under specific conditions.

7. Which section of MEDIF needs to be filled out by passenger’s Attending Physician?
MEDIF - PART 2 needs to be filled out completely by passenger’s Attending Physician duly signed and stamped.

8. Why is it important that ALL the information in the section (MEDIF - PART 2) must be completely filled out by the Attending Physician?
Complete and clear information provided by patient’s Attending Physician will help Qatar Airways Doctor to approve the case quickly. For a MEDIF with incomplete and vague information, Qatar Airways Doctor may contact the patient’s attending physician for clarification, which will result in delays.

9. What causes major delays in processing MEDIF application?
It has been observed that INCOMPLETE or VAGUE information provided within MEDIF is normally the cause of major delays in processing the application.

10. What are the validity requirements for Medical Certificate and MEDIF form?
• A Medical Certificate must be dated within 10 days of flight date.
• An application using MEDIF must be completed and submitted to Qatar Airways no less than 48 hours and no more than 7 days prior to flight departure.

11. Do I need a new MEDIF for my return journey?
Depending upon the medical condition of the passenger, Qatar Airways may require a new MEDIF prior to the return journey. In case no MEDIF is required for the return journey then this will be indicated within Part 2 as “Approved (full journey)”. Although, any change in the medical condition of the passenger after the approval process, should be notified to Qatar Airways at least 48 hours before travel.
Other Important Information:

a) Wheelchairs can be provided at most airports if notice is given.

b) Any case that Qatar Airways considers to result in jeopardizing the safety or operation of the aircraft will not be accepted by Qatar Airways.

c) Particular attention is drawn to the fact that the medical details given at the front of this form must be accurately typed and completed. If at the time of embarkation the condition of the passenger is not as good as the medical details provided, then the air carriage may have to be refused.

d) To ensure that your patient is accepted for carriage, it is important that all medical terms provided by the attending physician must be easily readable.

e) Wheelchairs with spillable batteries are “Dangerous Goods” and are permitted on passenger aircraft only under certain conditions which can be checked from the airline. In addition certain countries may impose specific restrictions.

f) For pregnancy cases, the Attending Physician must specify “Single/Multiple” and “Complicated/Uncomplicated” in Diagnosis in details within MEDA 03.

g) Mentally Deficient passengers. No MEDIF & Medical Report required if the passenger has a pre-approved Frequent Traveler’s Medical Card (FREMEC) or in stable condition.

h) In case of pregnancy, please specify age of gestation and if it is uncomplicated single or multiple / complicated pregnancy. Expectant mother has to be “Fit to Travel” for the time covering the entire journey with no intended/voluntary stopover at the transit point. Stopover is permissible provided the entire period of air travel is within the acceptable number of gestational weeks (not over 32 weeks for Multiple Pregnancy and not over 35 weeks for single pregnancy).
